

CULTURAL CAPITAL ENHANCEMENTS - OASIS ACADEMY TEMPLE

Here at Oasis Academy Temple, we are passionate and committed to providing the children in our care with outstanding learning opportunities.

Our aim is to enrich every child's school experience and create an environment where they are encouraged to succeed and be the best they can be.

Cultural capital is about preparing children with the knowledge and skills for what comes next. We realise the exploration of new skills and experiences helps to nurture resilience, curiosity and creativity. Ultimately, this leads to the growth of new forms of cultural capital that makes a difference in individual mind-sets and shapes the future.

The intent of our additional curriculum initiatives is to help our children experience the awe and wonder of the world in which they live. This is so important here at Oasis Academy Temple because what children learn in their formative years with us will stay with them forever.

As part of our forward thinking and intentions, each year group has implemented a 'Cultural Capital Journey' for the children to follow and complete over the year. Each activity relates to the six themes we teach over the year and the 9 Habits, our core values, that we embrace as a school.
