

IN SUMMER B WE WILL BE LEARNING:

PSHE

Our learning project this half term is called 'Lost and Found' and will be PSHE based. We will be focusing on the mental health and wellbeing of the children, teaching them skills to adapt back to school life and be ready for learning again. The children will have lots of opportunities to talk about their experiences and feelings, this is our number one priority.

Maths, English and Science

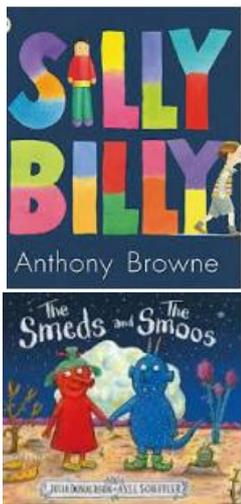

The story we will be reading in English is 'Silly Billy' by Anthony Browne. Through this book we will be reflecting on our experiences through lockdown and talking about feelings and emotions. We will then be learning all about poetry and then our final 3 weeks of term will be about Black History Month and our focus text will be 'The Smeds and The Smoos' by Julia Donaldson.

Throughout Autumn A we will be revisiting our basic reading, oracy and writing skills particularly focusing on:

- Leaving spaces between words. Joining words and clauses using 'and'.
- Beginning to punctuate sentences with capital letters, full stop, question mark or exclamation mark
- Using capital letters for proper nouns and 'I'.

In maths we will be learning all about numbers within 100, adding and subtracting 2 digit numbers and solving word problems.

In Science we will be learning all about materials, learning about their properties and grouping them in different ways.

READING TO SUPPORT OUR LEARNING:

Here are some books that we will be reading with the children throughout Autumn A.

WHAT YOU CAN DO AT HOME TO SUPPORT THE LEARNING:

Read with your child every night and ask them some questions about what they have read.

Practise reading and writing numbers within 100 and see if your child can order 2 digit numbers.

Practise writing simple sentences that begin with a capital letter, have finger spaces between words and end with a full stop.
