

### IN AUTUMN A WE WILL BE LEARNING:

In English this term, the whole school theme is 'Lost and Found' and pupils in Year 6 will be looking at the idea of Hope. We will base our learning around the text 'Wisp: a story of Hope' and this will be supported by a wide range of other fiction where characters overcome obstacles and remain positive. Our work in project will look at well-being and building positive relationships as we get back to school life.

In Art, the 'Lost and Found' theme will continue as children explore opposites of light and dark, shading, perspective and enjoy creative their own style.

The children will begin their maths learning with securing a knowledge of place value up to six digits before moving on to work with number and their calculation methods.

As scientists, this term, children will explore the topic of Living Things and their Habitats: starting with classifying animals into groups based on their characteristics.

### READING TO SUPPORT OUR LEARNING:

During Guided Reading and book talk this half term, the children in Year 6 will be exploring a range of books surrounding the focus of mental well-being. They will be having discussions about the text and looking at the different character recounts, perspectives and descriptions; sharing their ideas on what they think makes it an effective piece of writing.

### WHAT YOU CAN DO AT HOME TO SUPPORT THE LEARNING:

- Read with your child at least three times a week
- Practise spellings
- Encourage children to use CGP books to consolidate learning
- Urge children to use the maths websites in their homework books to build up their knowledge of multiplication facts
